INTERVIEW BOB CHEN
CONFIDENTIAL // FORENSIC INVESTIGATION RECORD

INTERVIEW TRANSCRIPT: BOB CHEN
Case: Meridian Tech Data Leak
Date: October 13, 2024
Interviewer: Detective Marcus Reed, Corporate Security
Interviewee: Bob Chen, IT Systems Administrator

[10:15 AM] REED: Please state your name and role.
[10:15 AM] CHEN: Bob Chen, IT Systems Administrator for Meridian Tech.
[10:16 AM] REED: Can you walk us through your whereabouts on the evening of October 12?
[10:16 AM] CHEN: I arrived at Building 4 at 8:00 PM for scheduled server maintenance. Around 9:30 PM, I stepped out to pick up takeout from the deli down the street. I came back around 10:20 PM and worked at my terminal until 1:00 AM.
[10:17 AM] REED: Where was your master keycard during that time?
[10:17 AM] CHEN: I had my physical master keycard in my wallet all evening and never lent it to anyone. I keep it chained to my belt loop at all times.
[10:18 AM] REED: Did you enter Server Room B during the night?
[10:18 AM] CHEN: No, I worked strictly from my office on Floor 2. I had no reason to visit Server Room B because my remote SSH console was functioning properly.
[10:19 AM] REED: Did you authorize any subcontractor or outside technician to access the server vault?
[10:19 AM] CHEN: No, absolutely not. Subcontractors are strictly prohibited from entering secure zones without an escort.
[10:20 AM] REED: Thank you, Bob.
