APEX ROBOTICS - SECURITY FORENSICS REPORT
Incident: Catastrophic Loss of SkyHarrier-9 Prototype
Investigator: Marcus Stone, Chief Security Officer
Date: October 26, 2024

1. EXECUTIVE SUMMARY: SkyHarrier-9 crashed at 21:05 UTC. Root-cause forensic memory analysis confirms deliberate firmware sabotage.
2. ATTRIBUTION: Physical access to Hangar 3 required badge authentication. Card #4412 (Derek Cole) accessed the hangar at 20:12 UTC.
3. CODE RECOVERY: The injected firmware payload contained a timer triggered when altitude exceeded 350 meters, cutting power to all electronic speed controllers.
